### About This Software

Professor Teaches Business Planning is an easy to use computer training software designed to help you prepare a business plan outline. It will take you from your initial

Title: Professor Teaches Business Planning  
Genre: Software Training  
Developer:  
Individual Software  
Publisher:  
Individual Software  
Release Date: 20 Jun, 2017

English

This tutorial is around 5 hours and is very thorough. It is detailed enough that you may wish to go through it many times as it covers just about everything including securing loans and grants. I recommend getting it in the 2017 bundle so that you get more bang for your buck. The reason is that this product is included in both the 2017 and the 2018 bundles and the 2017 bundle is about 33% cheaper.. Very thorough. Covers many business planning aspects. Am now onto Professor Teaches Accounting Fundamentals. I recommend getting this using the bundle option. You get much more bang for your buck that way. Highly recommended software..
